

INTRODUCING

We believe that every person should have the opportunity to pursue their dream of parenthood. With Fertility Access, you have the peace of mind knowing that **if you do not take home a baby, you will receive a 100% refund of your program fee.**

100% REFUND PROGRAM

Includes 3 retrievals
and unlimited frozen embryo transfers.

This program provides ultimate peace of mind knowing that you will either successfully take home a baby or receive a full refund.

4 Reasons to Choose Fertility Access

- 1. Easy access.** Fertility Access makes paying for IVF treatment simple and stress-free, so you can focus on building your family.
- 2. Financial Security.** If you are not successful, you will receive a 100% Refund of your program fee.
- 3. Peace of mind.** With the cost of treatment taken care of, you can focus on what's most important - building your family!
- 4. Save money.** By bundling your IVF cycles with a Fertility Access program, you can save up to 40% on your treatment costs.

3 Steps to Enroll in the 100% Refund Program

1. Speak with your Financial Counselor and a Fertility Access Patient Concierge.

A financial counselor at your practice will review the program and costs with you. Please ask your financial counselor to submit the necessary clinical information to Fertility Access of your behalf. There is no obligation to enroll and there is no fee to find out if you qualify. Once approved, your Fertility Access Patient Concierge will contact you to explain the program details, financing options available, and send you a contract to review.

2. Review your contract.

Review the contract carefully and ask your Concierge any questions you may have. Your Concierge can answer questions on the contract details, payment options, and any other questions you may have.

3. Sign and submit.

The last step is to sign and return your contract and pay the one-time, discounted program fee upfront. By paying upfront for a treatment bundle, patients save up to 40% over paying for the same treatment cycle by cycle.

“With Fertility Access, we knew we had a financial safety net. The reassurance that provided allowed us to focus our full attention on building the family we deeply desired.”

FREQUENT QUESTIONS

How can Fertility Access help me?

The 100% Refund program offers significant savings by bundling reduced fees upfront. The program also provides peace of mind, knowing you will receive a 100% refund in the event treatment is unsuccessful.

Why should I enroll in a Fertility Access program rather than just pay for one cycle at a time?

Unfortunately, the reality of infertility treatment is that sometimes it takes more than one treatment cycle to achieve success. In traditional pay-per-cycle plans, in order to try again, you must pay again. With Fertility Access, prepayment offers significant savings and makes it much more efficient to start a new cycle should that be necessary. All the while, your physician is working with you to make treatment adjustments to optimize your chance of success.

How does Fertility Access work with my insurance benefits?

The Fertility Access programs are particularly helpful for patients with little or no health insurance coverage for IVF treatment. We will work with you to understand how to maximize your insurance benefit and utilize the Fertility Access program.

If I enroll in the 100% Refund Program, will it affect my treatment plan?

There is absolutely no impact on the treatment plan your doctor created for you. You will receive the same care that you would if you were to pay for treatment one cycle at a time.

How do I apply?

There is nothing for you to do other than ask your Financial Counselor to apply on your behalf. Most patients have already completed all necessary tests; if not, you will be informed if any additional testing is necessary.

Is there an application fee?

There is no cost to apply and no obligation to enroll. We encourage all patients to apply.

What happens after my application is submitted?

The Fertility Access clinical team will review your application to determine your eligibility. This review typically takes 24 to 48 business hours.

How does Fertility Access determine eligibility?

Our goal is to help you achieve the family of your dreams with as few financial barriers as possible. The program has eligibility criteria such as age and medical history requirements, to name a few.

How much do the programs cost and what does the fee include?

You will receive a detailed cost estimate based on the treatment plan your doctor has recommended. Typically, our bundled prepayment programs offer up to a 40% savings over paying on a cycle by cycle basis.

Do the cycles have a completion timeline?

In general, we ask that the program be completed within 36 months. All of this will be fully explained in your contract and of course, your Fertility Access Patient Concierge can answer any questions.

I see that the programs include unlimited frozen embryo transfers, what does this mean?

This can lead to a significant savings if you have frozen embryos because each transfer will be included at no additional cost to you. Following an IVF cycle or a freeze-all cycle, there may be high quality embryos, that make great candidates for vitrification (flash freezing) for future pregnancy attempts. A frozen embryo (FET) is a cycle in which a frozen embryo(s) is thawed and then transferred back into a woman's uterus.

The success rates of an FET cycle are at least comparable if not higher than fresh cycles, as FETs offer an opportunity to optimize the lining of the uterus before implantation in subsequent cycles, plus they require less medication and are generally considered easier and more convenient.

How do I enroll in a Fertility Access program?

Once you have decided that the Fertility Access program is right for you, contact a Fertility Access Patient Concierge at **1-800-873-9203** or **FertilityAccess@USFertility.com** and they will send you a contract to review and sign. Submit payment, and you will be ready to start your treatment.
